TO OUR GUESTS USING MISSOURI HIGHWAYS:

On behalf of all Missourians, I would like to welcome you to our State and express our sincere pleasure in having you visit our State. We trust you will have an opportunity to visit some of Missouri's many lakes, streams, State Parks and other scenic attractions, as well as our historical sites and metropolitan areas.

Missouri - as the result of its geographical and historical position as a border State and also as the frontier at the time of the great pioneer migrations - has a unique heritage. You will find embodied in our State and people characteristics of the industrial North and agricultural South, along with the culture of the East and the vigor of the West.

These varied influences have brought about a broad diversification of activities that will make your stay with us an interesting one. We hope that you will enjoy such features as our excellent hunting, fishing and other sports facilities, the attractions and conveniences of our major cities.

We only request that you respect our laws and exercise caution while driving on our highways.

Sincerely yours,
Warren E. Hearnes
 Governor of Missouri
