

Design-Build Project: I-44 Project Bridge Rebuild

Item Number	RFQ Section	Topic	Comment/Question	FOR MODOT USE ONLY		
				MoDOT Response	Date	Will change be reflected in future addendum? (Y/N)
1	6.1	Major Participants	Can the 10% requirement for Construction be updated to 30%?	MoDOT has reviewed the request and submitter is to follow language as-is in RFQ.	8/15/18	N
2	-	Halltown Area	There was little information provided on the reconstruction/re-configuration of the Halltown interchange. What is the magnitude of importance and the extent of work expected at this location?	MoDOT wants to be open to ideas, flexible and allow for innovation through the Design-Build process. There is opportunity for innovation in this area; however, the focus of this project is on bridges and ensuring the service life on them is maximized with this project. See goal no. 2.	8/16/18	N
3	1.1	Co-Location	In Sec. 1.1 (page 4/18) there is a statement about “securing a project office within reasonable proximity to the jobsite to co-locate with MoDOT D/B staff”. Can you elaborate more on the co-location expectations? What is considered reasonable proximity on location, and the amount of staff? All phases of project, or just construction?	The project stretches from Joplin to Halltown basically. As such, reasonable proximity could be assumed the Joplin area to Springfield. Anything outside of that we would not consider within proximity. We are open to ideas and want to be flexible on the co-location for this project.	8/16/18	N
4	-	Geotech/Survey	Will additional survey and Geotech work be provided by MoDOT from the contracted consultants during proposal and contract phases? (final Geotech report, bridge soundings/borings).	No – MoDOT will not supply any additional information than what is released with the RFP.	8/16/18	N
5	-	Submittal Inquiry	Is it acceptable to include pictures within narratives on the standard forms for experience summaries?	We don’t have issues with this. It is your submittal.	8/16/18	N
6	Vairous	Definitions	The term “Proposer” and the “Submitter (Team) Name” are referenced throughout the SOQ. Is the “Proposer” the name in which the contract will be executed with and the “Submitter (Team) Name” just an identification of Team members?	Submitter – Anyone who submits a SOQ in response to MoDOT’s RFQ. Proposer – An individual, firm, partnership, corporation, joint venture, or combination thereof that was shortlisted under the Commission's Request for Qualifications that submits a proposal in response to the RFP – Page 5 of RFQ – Section 2.1. Some of the forms are called for during both phases of procurement, so instead of requiring teams to fill out forms multiple times, we accept the form as part of the SOQ process.	8/27/18	N

Form DB-107
REQUESTS FOR CLARIFICATION – RFQ PHASE

rev 1/2017

7	4.1	Signature on SOQ's	Do any of the SOQ (9) printed copy submittals need to be with original signatures (section 4.1)?	Yes – all printed submittals.	8/27/18	N
8	Forms	Modifications of Forms	As the required DB forms shall not be modified, should we leave the blue wording on the form?	The blue wording may be deleted by the Submitter.	8/27/18	N
9	Forms	DB-103	Form DB-103 has space for (8) key personnel, but the SOQ allows (9). Can the form be modified?	Modifying this form is acceptable provided all the same information is available on the modified version as the original version and the number of pages remain the same.	8/27/18	N
10	Forms	DB-105	Form DB-105 states at the bottom “(submit one form)”, but section 4.3 list page numbers “as needed”. Do we just submit (1) form for our submitter (team) name?	The primary submitter and all major participants should submit this form.	8/27/18	N
11	Forms	DB-802	Form DB-802 states “[To be signed by authorized signatory or signatories of the Proposer and each Major Participant] , but section 4.3 list page numbers (1), should this be “as needed”?”	After review, section 4.3 should be updated to “As Needed”	8/27/18	Y
12	3.5	Design Manager Exp.	“For the Design Manager role, will bridge rehabilitation experience on similar U.S. Highway bridges be considered equivalent to interstate bridges?”. (section 3.5)	Please submit based on your interpretation of what the RFQ is requesting.	8/27/18	N
13	Forms	DB-105 & 802	Do forms 105 and 802 come from the primary submitter or are those forms needed from major participants?	The primary submitter and all major participants should submit Form DB-105 as well as DB-802. Section 4.3 will be updated to “As needed” for DB-802	8/27/18	Y
14	3.5	MOT Manager	With respect to the “Maintenance of Traffic Manager” position listed in section 3.5; Is this position intended to be more a part of construction related activities such as an on-site work manager? There is no on-site requirement and the description lists “recent and relevant experience developing and implementing detailed traffic control plans...” Developing implies design, implementing implies construction.	The Submitter should submit based on how they best interpret what the RFQ is requesting.	8/27/18	N
15	1.1	Co-Location for Design	The last paragraph on page 4 states that “it is anticipated that the proposer will identify and secure a project office within the State of Missouri and within reasonable proximity to the jobsite to co-locate with the MoDOT Design-Build Staff.” We would like to clarify our interpretation is that it is not required that the design staff re-locate to the office other than being present for all necessary task force meetings.	MoDOT wants to be open and flexible with this process.	8/27/18	N
16	3.5 & 3.6	Org. Chart	Part 3 and Part 4 of the SOQ require the submission of an Organizational Chart to be included as part of the three (3) sheet maximum of each Section. Please clarify our interpretation is that only one Organizational Chart is required and counts as part of the page count in either Part 3 or Part 4.	The organizational chart is a submittal requirement in Part 3. It only needs to be submitted one (1) time and is not required in Part 4.	8/27/18	Y

17	3.5	Quality Manager	Part 3 of the SOQ describes the position of the Quality Manager and their role as Key Personal. This position appears to have responsibilities during both Design and Construction phases given the requirement to be on site for all construction activities. Please clarify if MoDOT will allow for this position to be filled by two people; one during design provided by the design consultant and one during construction provided by the contractor, or if this designated person will be responsible for Quality Management of both Design and Construction?	The RFQ calls out the identification of five (5) key personnel. It also allows for up to 4 additional key personnel to be named. If a Submitter chooses, the position could be separated as you've described.	8/27/18	N
18	3.4, 3.5, & 3.6	DBE & WF Utilization	Part 2, Part 3 (under key tasks) and Part 4 all ask for DBE Utilization and Workforce Diversity information. Since our maximum sheets are limited, is it acceptable to write up our DBE and Workforce Utilization information in one Part, and refer to that write up in the other sections?	The Submitter should review the information and submit based on how they feel they have best met what has been requested in the RFQ.	8/27/18	N
19	Forms	DB-102 – Key Personnel	Form DB-102 has a table at the bottom (personnel involved in reference project) and states "List only individuals who are Key Personnel". Can the list also include the (4) additional key personnel as allowed in section 3.5 Part 3 ?	As long as they are officially named and included in the Organizational Chart as Key Personnel, they can be referenced.	8/27/18	N
20	3.5 & 3.6	Quality Approach, DBE Utilization, Safety and Org Chart	Could you differentiate or elaborate on the submittal requirements in Part 2 and Part 4 of the RFQ? There seems to be some overlap in what is being asked for in these sections (Quality Approach, DBE Utilization, Safety), and an org chart is required in both sections.	The Submitter should review the information and submit based on how they feel they have best met what has been requested in the RFQ. The organizational chart is a submittal requirement in Part 3. It only needs to be submitted one (1) time and is not required in Part 4.	8/27/18	Y

Add additional lines as needed.
