

## 2010-11 District Winner

Innovations Challenge Showcase  
<http://wwwi/intranet/or/SolutionsAtWork/Innovations.htm>

March 2011

Prepared by Organizational Results  
Missouri Department of Transportation

## Sign Post Leveler

### Description

This innovative tool uses a bent piece of round steel rod to level sign bases. It can be operated by hand or foot pressure.

### Benefit

This tool allows one employee to quickly level one or two post signs. It also reduces back strain from lifting directly on the posts.

### Parts and Labor

2-1/2 feet – 5/8” round steel rod

**Total \$10**

**Labor: 1 hour**
