

# Adding a Power Unit to a Haz Waste Transporters License External Procedure

## Overview

Once you have an active transporters license you will have the option to add units for a fee through the duration of your license. The fee will be prorated based on the active months remaining on your license and the fees charged at renewal. Units you add cannot be deleted until your next renewal, however, you can replace a unit with a new unit at no cost anytime during the active license.
