

OVERVIEW

Missouri Transportation Funding – Overview

Missouri’s transportation revenue, including bond proceeds, totaled nearly \$4 billion in fiscal year 2023. As shown below, 64% of total revenue came from state user fees, 31% from federal revenue and 5% came from Missouri’s General Revenue Fund, which receives revenue from the state income tax and the state’s general sales tax.

The \$4 billion of revenue and bond proceeds is distributed into five “buckets” for various transportation purposes as determined by state and federal laws. Each bucket has a unique blend of state and federal revenue, as depicted by the red, blue and gold colors. The following pages provide a detailed look into each revenue source and funding bucket.
