Description of Authority	Item Number
<p>Operations as a common carrier by motor vehicle upon the public highways in Missouri intrastate commerce, transporting household goods to, from and between all points and places in Missouri.</p> <p>The term “Household Goods” is defined as: Personal effects and property used or to be used in a dwelling when part of the equipment or supplies of such dwelling and similar property, if the transportation of such effects or property, is either arranged and paid for by the householder, including transportation property from a factory or store when the property is purchased by the householder with intent to use in his or her dwelling, or arranged and paid for by another party. The term “household goods” shall not include personal property which when tendered to a motor carrier is crated or otherwise packaged to make it suitable for transportation by motor carriers of general commodities, freight or property.</p>	200

Section 4– Rules and Regulations

Description of Item	Item Number
<p>ADVANCE CHARGES: Charges advanced by carrier for services of others engaged at the request of the shipper will be supported by carrier with a copy of invoice setting forth services rendered, charges and basis thereof. The charges so advanced are in addition to and shall be collected with all other lawful rates and charges.</p> <p>When services of a third party are arranged at the request of the shipper or shipper's agent, carrier will not assume responsibility for their activities or conduct, amount of their charges, nor the quality of service furnished.</p>	400
<p>ARTICLES LIABLE TO CAUSE DAMAGE:</p> <p>A. Carrier will not accept for shipment property liable to impregnate or otherwise damage equipment or property.</p> <p>B. The Carrier will not accept for shipment property which cannot be taken from the premises without damage to the article or the premises.</p>	405
<p>BASIS OF WEIGHT:</p> <p>A. Gross weight, tare weight, net weight and constructive weight.</p> <p>1. The tare weight of each vehicle used in the transportation of household goods shall be determined by having it weighed prior to the transportation of each shipment, with the driver but without the crew thereon, on a certified scale, and when so weighed the fuel tanks on such vehicle shall be full and vehicle shall contain all pads, chains, dollies, hand trucks, and other equipment needed in the transportation of shipments to be loaded thereon, and such weight shall then be entered on the bill of lading. After the vehicle has been loaded, it shall be weighed, with the driver but without the crew thereon, at the certified scale nearest to the point of origin of the shipment, and the net weight of the shipment shall be obtained by deducting the tare weight from the gross weight, and both the gross weight and net weight shall be entered on the bill of lading. Where no certified scale is available at the point of origin, the gross weight shall be obtained at the nearest certified scale either in the direction of the movement of the shipment, or in the direction of the next pick-up or delivery in the case of part loads. In the transportation of part loads, this subsection shall apply in all respects, except that the gross weight of a vehicle containing one or more part loads shall be used as the tare weight of such vehicle as part loads subsequently loaded thereon. Also, the person paying the freight charges, or his representative, upon request of either, shall be permitted without charge to accompany, in his own conveyance, the carrier to the weighing station and to observe the weighing of his shipment after loading. The carrier shall use a certified scale which will permit the shipper to observe the weighing of the shipment without causing delay.</p> <p>2. If no certified scale is available at origin, or at any point within 10 miles thereof, a constructive weight, based upon 7 pounds per cubic foot of properly loaded van space, may be used.</p> <p>B. Obtaining Weight Tickets: The carrier shall obtain a weight ticket signed by the scale representative or its driver for each weighing required under this section, and the driver shall enter thereon the number of the bill of lading accompanying the shipment involved. No other additions or alterations shall be made on any such tickets. As soon as such weight ticket is obtained, true copies thereof shall be attached to the receipt or bill of lading accompanying the shipment, and retained in the carrier's file. A true copy of each weight ticket pertaining to a shipment shall be given to the shipper at the weighing station if the shipper is present or upon delivery of the shipment if the shipper is not present at the weighing.</p> <p style="text-align: center;">(Continued on following page)</p>	410

Description of Item	Item Number
<p>BASIS OF WEIGHT: (Concluded)</p> <p>C. Any of the following shipments may be weighed on a certified scale prior to being loaded on the vehicle: (1) a partial load for any one shipper not exceeding 1,000 pounds; (2) an automobile or other article weighing in excess of 500 pounds which is mounted on wheels; and (3) a shipment which the carrier containerizes for further transportation, in which case the net weight of the shipment shall be the gross weight of the container less the tare weight of the container; the gross weight of the container shall be packed and prepared for shipment; the tare weight of the container shall include all of the pads, skids, blocking and bracing used, or to be used, to protect the contents of the container, but not including packing materials used in the preliminary packing of the shipment.</p> <p>D. The provisions of paragraph A and B of this rule shall not apply to shipments tendered to the carrier in containers or to shipments consisting solely of machinery (including auxiliary and components parts thereof) which are being transported by household goods carriers pursuant to the definition of household goods in Item 1 of this tariff; provided, the weight of each shipment is certified by the shipper thereof on the bill of lading covering such shipment.</p> <p>E. No carrier shall add to or take from the tare weight of the vehicle for the purpose of altering the net weight of a shipment.</p>	(410 Con- cluded)
<p>BILL OF LADING AND RATES:</p> <p>A. Unless otherwise provided in this tariff, when property is transported subject to the provisions of this tariff, or as amended, the acceptance and use of the uniform household goods Bill of Lading described herein is required. Any alteration, addition or erasure on the bill of lading which shall be made without the special notation thereon of the agent or the carrier issuing this bill of lading shall be without effect, and this bill of lading shall be enforceable according to its original tenor.</p> <p>B. The rates and charges shown herein are reduced rates conditioned upon the use of the uniform household goods bill of lading. Consignor, at their option, may elect not to accept the terms of the uniform household goods bill of lading, and in lieu thereof to have the carrier transport the property with carrier's liability limited only as provided by common law and by the laws of the State of Missouri, but subject to the terms and conditions of the uniform household goods bill of lading insofar as such terms and conditions are not inconsistent with such common carrier's liability; the rate charged therefor will be 100 percent higher than the transportation rate contained in this tariff as would apply for such shipment if offered for transportation at a released value not exceeding 60 cents per pound per article. When the consignor elects not to accept any of the terms of such bill of lading, the shipper must give notice to the initial carrier of such election. The initial carrier must indicate the receipt of such notice by writing or stamping thereon a clause signed by the carrier reading:</p> <p style="padding-left: 40px;">"In consideration of the higher rate charged, the property herein described will be carried, and the services to be rendered hereunder will be performed, with the carrier's liability limited only as provided by law; but subject to the terms and conditions of this bill of lading insofar as they are not inconsistent with such common carrier's liability."</p> <p>C. All rates and charges herein are dependent upon the shipment being released in accordance with the provisions of Item No. 445, VALUATION FOR LOSS AND DAMAGE.</p> <p>D. Unless the shipper expressly releases the shipment to a value not exceeding 60 cents per pound per article, the carrier's maximum liability for loss and damage shall be either the lump sum value declared by the shipper or an amount equal to \$1.25 times the actual weight in pounds of the shipment, whichever is greater. For this liability, additional valuation charges as provided in Item 590 of this tariff will apply. If the shipper wishes to avoid these additional charges, he must agree that if any articles are lost or damaged, the carrier's liability will not exceed sixty (60) cents per pound for the actual weight of any lost or damaged article or articles in the shipment.</p>	415

Description of Item	Item Number
<p>CLAIMS:</p> <p>A. Claims in writing required. A claim for loss, damage, injury, or delay will not be voluntarily paid by a carrier unless filed in writing as provided in subparagraph (B) below with the receiving or delivering carrier, or carrier issuing the bill of lading, or carrier on whose line the alleged loss, damage, injury, or delay occurred, within the specified time limits applicable thereto, and as otherwise may be required by law, the terms of the bill of lading or other contract of carriage, and all tariff provisions applicable thereto.</p> <p>B. Minimum filing requirements. A communication in writing from a claimant filed with carrier within the time limits specified in the bill of lading or contract of carriage for transportation, and (1) containing facts sufficient to identify the shipment (or shipments) of property involved, (2) asserting liability for alleged loss, damage, injury, or delay, and (3) making claim for the payment of a specific or determinable amount of money, will be considered as sufficient compliance with the provisions for filing claims embraced in the bill of lading or other contract of carriage.</p> <p>C. Documents not constituting claims. Bad order reports, appraisal reports of damage, notations of shortage or damage, or both, on freight bills, delivery receipts, or documents, or inspection reports issued by carriers or their agencies, whether the extent of loss or damage is indicated in dollars and cents or otherwise, will standing alone, not be considered by carriers as sufficient to comply with the minimum claim filing requirements specified in subparagraph (B) above.</p> <p>D. <u>Claims filed for uncertain amounts.</u> Whenever a claim is presented against a carrier for an uncertain amount, such as “\$100 more or less” the carrier will determine the condition of the shipment involved at the time of delivery by it, if it was delivered, and will ascertain as nearly as possible the extent, if any, of the loss or damage for which it may be responsible. It will not, however, voluntarily pay a claim under such circumstances unless and until a formal claim in writing for a specified or determinable amount of money will have been filed in accordance with the provisions of subparagraph (B) above.</p> <p>E. <u>Other claims.</u> If investigation of a claim develops that one or more other carriers has been presented with a similar claim in the same shipment, the carrier investigating such claim will communicate with each such other carrier and, prior to any agreement entered into between or among them as to the proper disposition of such claim or claims, will notify all claimants of the receipt of conflicting or overlapping claims and will require further substantiation, on the part of each claimant of his title to the property involved or his right with respect to such claim.</p> <p>F. <u>Concealed damage or shortage.</u> Carrier must be promptly notified after discovery of concealed damage or shortage and given reasonable opportunity to inspect the shipment and packing. Carrier will promptly and thoroughly investigate the claim and will establish a claim file in connection therewith.</p> <p>G. <u>Supporting documents.</u> When necessary part of an investigation, each claim must be supported by the original bill of lading (if not previously surrendered to the carrier), either the original paid bill for the transportation services or a copy thereof, and for each article, the nature and extent of such damage, the basis for the amount claimed, such as, date article purchased, original cost, amount of depreciation, actual cash value at the time of loss or damage and, in the case of damage, a repair estimate.</p> <p>H. <u>Verification of loss.</u> When an asserted claim for loss of an entire package or an entire shipment cannot be otherwise authenticated upon investigation, the carrier will obtain from the consignee of the shipment in writing that the property for which the claim is filed has not been received from any other source.</p> <p style="text-align: center;">(Continued on following page)</p>	420

Where a claim is not filed or suit is not instituted thereon in accordance with the foregoing provisions, carrier will not be liable and such claim will not be paid.</p> <p>L. <u>Acknowledgement and settlement by carrier.</u> Carrier, or its agent, will acknowledge receipt of each claim in writing to the claimant within 30 calendar days after its receipt by the carrier's agent. Carrier will at the time such claim is received, cause the date of receipt to be recorded on the claim. Carrier will pay, decline, or make a firm compromise settlement offer in writing to the claimant within 120 days after receipt of the claim by the carrier or its agent; provided that, if the claim cannot be processed and disposed within 120 days after receipt thereof, the carrier will at that time advise the claimant in writing of the status of the claim and the reason for the delay in making final disposition thereof.</p> <p>M. <u>Salvage.</u> Whenever property transported by a carrier is damaged or alleged to be damaged and is, as consequence thereof, not delivered or is rejected or refused upon tender thereof to the owner, consignee, or person entitled to receive such property, carrier, after giving due notice, whenever practicable to do so, to the owner and other parties that may have an interest therein, and unless advised to the contrary after giving such notice, will undertake to sell or dispose of such property directly or by the employment of a competent salvage agent. <p>CONTRACT TERMS AND CONDITIONS OF UNIFORM HOUSEHOLD GOODS BILL OF LADING: (Concluded)</p> <p>E. From Acts of God.</p> <p>Subject, in addition to the foregoing, to the further following limitations on the carrier's liability. The carriers maximum liability shall be either:</p> <ol style="list-style-type: none"> 1. Every carrier shall have the right in case of physical necessity to forward said property by any carrier or route between the point of shipment and point of destination.</p> <p>Section 3:</p> <p>A. The shipper, upon tender of the shipment to carrier, and the consignee, upon acceptance of delivery of shipment from carrier, shall be liable, jointly and severally, for all unpaid charges payable on account of a shipment in accordance with applicable tariffs including, but not limited to , sums advanced or disbursed by a carrier on account of shipment. CREDIT CARDS, PAYMENT OF CHARGES BY: The carrier may accept a credit card in lieu of payment of all rates and charges in cash or check on any shipment transported between points in Missouri. The carrier may limit the credit cards accepted for payment and may subject the use of the credit card to authorization from the credit card company on each shipment prior to acceptance of the shipment by the carrier.	440

VALUATION FOR LOSS AND DAMAGE:

- A: AS USED IN THE TARIFF, THE TERMS VALUATION, RELEASED VALUE AND DECLARED VALUE ARE ALL WAYS TO PROTECT A SHIPMENT AGAINST LOSS AND DAMAGE.
- B. The carrier is required by law to offer valuation to all shippers.
- C. There are four types of valuation. The amount of recovery if the item is lost or destroyed varies for each type. These types are:
- Type I - \$.60 per pound per article.
 - Type II - \$1.25 multiplied by the weight of the shipment.
 - Type III - Declared value or released value of a shipment.
 - Type IV - Full value protection.
- D: The released value must be entered on the bill of lading as "The shipment will move subject to the rules and conditions of the carrier's tariff, shipper released the entire shipment to a value not exceeding ____ (inserting \$1.25 times the weight, a specific value or full replacement)". The shipper must sign directly under the statement in his/her own handwriting.
- E. If the released value on the bill of lading is not completed or signed, the shipment will be deemed to be released to an amount equal to \$1.25 times the actual weight of the shipment – Type II coverage.
- F. The released value as determined by this rule shall apply to any claim resulting from the performance or failure to perform by carrier of any service, including accessorial services, which carrier has contact to perform.

Example: If a shipment weighing 5,500 pounds is destroyed in a wreck, the amount of coverage under each type is computed as follows:

Method of Valuation	How the Value is Calculated	Value if Lost or Damaged (Max. Liability)	Item Lost or Damaged Subject to	Cost to Shipper
Type I	5,500 pounds times 60 cents (5,500 x .6 = 3,300)	\$3,300.00		No cost
Type II	5,500 pounds times 1.25 with the resulting figure raised to the next 100 lb. increment	\$6,900.00	Depreciation	6,900 times charge in Type II
Type III	The shipper sets the value of the shipment. The value cannot be less than the value determined by Type II. (In this example \$7,500.00)	\$7,500.00	Depreciation	7,500 times charge in Type III
