

Section 4c – Legislatively Designated and Funded Initiatives

Legislatively Designated and Funded Initiatives

This section of the Statewide Transportation Improvement Program contains projects funded by Missouri's General Assembly during the 2024 legislative session. These projects are funded by either General Revenue or bonding authorized by the General Assembly.

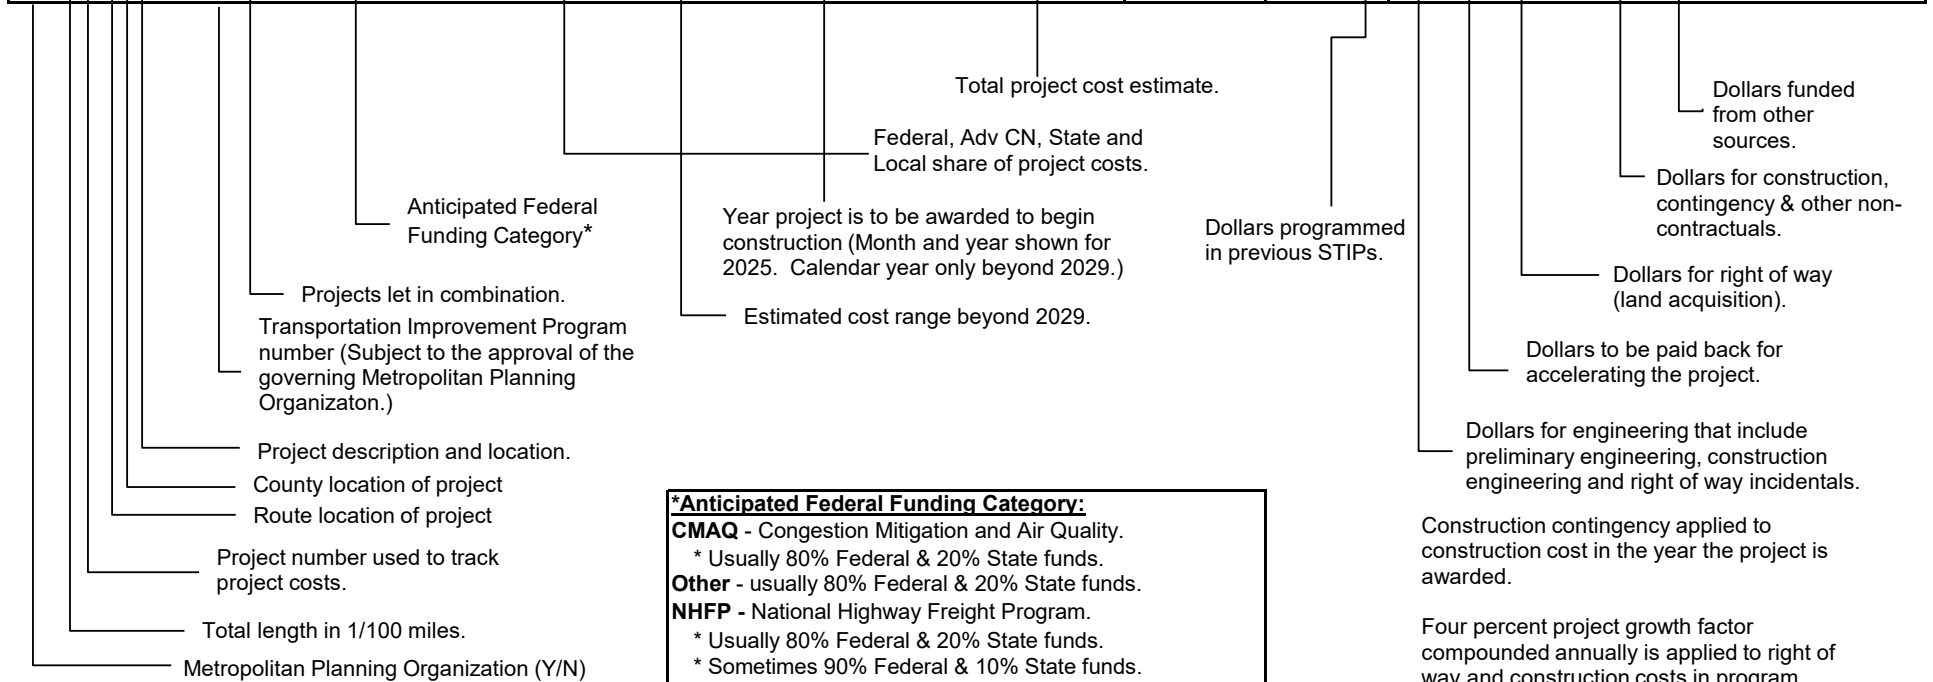

During the 2024 Missouri legislative session, the Missouri General Assembly addressed many transportation needs in the state, highlighted by the investment in several locations of I-44. Missouri's FY2025 budget from the General Assembly and supported by Governor Parson provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate and repair designated segments and other Interstate 44 needs from Tier 2 and 3 of the High Priority Unfunded Needs list.

In addition to the Interstate 44 projects, the General Assembly also made substantial investments in other projects. These other projects are funded by General Revenue and Budget Stabilization Fund on corridors including, but not limited to, routes such as US 65, US 67, and Interstate 70, and are to conduct environmental studies on future corridor enhancements, construct multimodal projects, and improve pavement conditions on rural routes around the state.

The following is a list of those projects and information about their funding, timing and contain specifics about each project. MoDOT will track these projects and report regularly on their progress.
