---

The [EPG](#) has been updated as described below:

**Implementation Statement: NA**

*(The Implementation Statement is a recommendation by the Development Section. The SPM is responsible for the level of implementation for any particular job.)*

Revision Date	Items Revised	Description of Change
<a href="#">July 2024</a>	EPG: <a href="#">751.1.3.4</a>	The 12" x 29" vertical bridge barrier was errantly classified as a NCHRP 350 TL-4 barrier. The minimum barrier height requirement for NCHRP 350 TL-4 is 32 inches. The vertical barrier is reclassified as NCHRP 350 TL-3. An accurate classification is necessary to make informed rehab decisions.
	Bridge Standard Drawings: NA	
	MicroStation Cells: NA	
	Std. Specifications: NA	
	Standard Plans: NA	
	Bridge Special Provisions: NA
