Section 6 – Special Programs
2025 – 2029 STIP
May Administrative Modification - Batch 3
Pollinator-Friendly Practices on Roadsides and Highway Rights of Way Program

Roadside Pollinator Program

The Pollinator-Friendly Practices on Roadsides and Highway Rights of Way, also referred to as the Roadside Pollinator Program, is an annual competitive grant program that awards grants to eligible entities to carry out activities that benefit pollinators on roadsides and highway rights of way including planting and seeding of native, locally appropriate grasses and wildflowers, including milkweed ([Title 23 United States Code § 332](#)).

The intent of the program is to fund the implementation or improvement of existing pollinator-friendly practices plans and projects, as well as encourage the use of best management practices for improving, restoring, creating, or protecting pollinator habitat in roadsides and rights of way.

Eligible applicants for Roadside Pollinator Program discretionary grants are State Departments of Transportation, Indian Tribes, and Federal Land Management Agencies.

An eligible entity that receives funding shall use the funds for the implementation, improvement, or further development of a pollinator-friendly practices plan. A qualifying plan must describe pollinator-friendly practices that have been implemented or will be implemented.

The pollinator-friendly practices should seek to create, enhance, restore, sustain, or maintain pollinator species and pollinator habitat on roadsides and highway rights of way. Eligible activities and practices included in the statutory language are listed under 23 USC § 332(d).

Additional information about the Roadside Pollinator Program may be found at https://www.environment.fhwa.dot.gov/env_topics/ecosystems/pollinators/RPP.aspx.
