The screenshot shows a web browser window displaying the Missouri Department of Transportation's "Transportation Dollars" calculator. The browser address bar shows the URL: <http://www.modot.org/TransportationDollars/Transpo>. The page header includes the MoDOT logo and the text "Missouri Department of Transportation" with the phone number "888-ASK MoDOT (275-4636)". Below the header is a blue banner with the text "TRANSPORTATION DOLLARS See how your tax dollars are invested in transportation".

The main content area is titled "Your Contribution To Transportation Funding Last Year" and includes the following text: "Enter your mileage and vehicle miles per gallon (mpg) to estimate how much you contribute in state and federal taxes and fees to Missouri's transportation system. Note: Do not enter commas or decimals".

The form contains the following fields and options:

- How many miles did you drive in Missouri last year?
- What is your vehicle's average miles per gallon?
- Does your vehicle use diesel fuel? Check if Yes
- Did you purchase a motor vehicle last year? Check if Yes

A green "Calculate" button is located at the bottom of the form.

On the left side of the page, there is a sidebar titled "Revenue Sources" with an icon of a blue trash can. The text in the sidebar reads: "Transportation is funded from motor fuel taxes, motor vehicle sales taxes and motor vehicle registration and driver license fees. [Current Transportation Funding]". Below this, it states: "Transportation Dollars calculates approximately how much you contribute in taxes and fees to support the transportation system."
