

NOTIFICATION

Please note, the format of the DBE goal reports has changed.

The posted reports list the calls included in the specified month's MoDOT Construction Project Letting, work types and North American Industry Classification System (NAICS) codes considered in establishing an appropriate DBE goal for each proposal. For work to be allowed to count toward the DBE goal, the DBE firm must be certified by the Missouri Regional Certification Committee (MRCC) and certified with the appropriate NAICS code in which work is performed. The following is a link to the complete listing of certified DBE firms which includes each DBE firm's assigned NAICS code(s).

[MRCC Directory \(mo.gov\)](https://www.mo.gov/mrcc)

Work Types Considered

The Work Types Considered column lists the type of work(s) considered in establishing an appropriate DBE goal for each specific proposal. The work type may be for product supply/manufacturing or furnish and install services that could potentially be involved in the line items within the specific proposal.

NAICS Codes

Certified DBE firms are assigned North American Industry Classification System (NAICS) code(s). The listed NAICS code may be the appropriate code for type(s) of work associated in the proposal. It is the bidder's responsibility to verify the DBE firm has the appropriate code(s) for the work intended for the DBE to perform to count toward the contract DBE goal.

If you have any questions or to request additional information, please contact MoDOT's Business Development and Compliance Division at 573-526-2978.
