**Date:** Tuesday, May 12, 2026 10:31:43 AM

---

The [EPG](#) & [Bridge Special Provisions](#) have been updated as described below:

**Implementation Statement:** Effective immediately for design checks not started.

*(The Implementation Statement is a recommendation by the Development Section. The SPM is responsible for the level of implementation for any particular job.)*

Revision Date	Items Revised	Description of Change
<a href="#">May 2026</a>	EPG: <a href="#">751.36.5 ; 751.50 (E2)</a>	New policy has been developed for friction (CIP) piles. The policy affects CIP pile length estimates as well as the procedures used for pile driving capacity verification. Refer to <a href="#">SEG 25-01</a> for documentation of policy changes, background and some design examples.
	Bridge Standard Drawings: NA	
	MicroStation Cells: NA	
	Std. Specifications: NA	To supplement SEG 25-01, changes were made to EPG 751.36.5 and 751.50 Notes E2.
	Standard Plans: NA	
	Bridge Special Provisions: <a href="#">702-BSP-03</a>	

Follow links above for more information (internal only, except BSP & SEG).
